October 20, 2016

Dear Parents,

The Pacific View Charter School Board of Trustees recently entered into an agreement with Interquest Detection Canines, Inc., to provide trained detection canines to conduct random, unannounced inspections of all campus locations.

These canines are trained to detect the presence of illicit drugs, alcohol, and gunpowder-based items. Campus buildings, parking lots, and grounds will be randomly inspected for prohibited items. If detected and found, administration will initiate the appropriate disciplinary action.

These canines are non-aggressive retrieving breeds such as golden and Labrador retrievers. They are trained to discriminate specific "scents" of contraband items and indicate the area where the scent is detected. Interquest provides service to over 1,200 public school districts across the nation.

With the recent publicity concerning the dramatic increase in teenage drug use, Pacific View Charter School is taking every reasonable precaution to insure a safe and healthy learning environment of all concerned.

Respectfully,

Gina Campbell, Executive Director
