## **Bullying**

---

### **Definitions:**

Bullying means, “any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of electronic act, as defined, including, but not limited to, sexual harassment, hate violence, or harassment, threats, or intimidation, that has the effect or can reasonably be predicted to have the effect of placing a reasonable pupil as defined\*, in fear of harm to that pupil’s or those pupils’ person or property, causing a reasonable pupil to experience a substantial detrimental effect on his or her physical or mental health, causing a reasonable pupil to experience substantial interference with his or her academic performance, or causing a reasonable pupil to experience substantial interference with his or her ability to participate in or benefit from the services, activities or privileges provided by a school.”

\*Reasonable pupil means, “a pupil including but not limited to an exceptional needs pupil who exercises average care, skill and judgment in conduct for a person of his or her age or for a person of his or her age with his or her exceptional needs.”

### **Reporting:**

School personnel who witness acts of bullying shall take immediate steps to intervene when safe to do so. Students who are the targets of bullying, staff, or any community member who has witnessed bullying, shall report the abuse to the Executive Director/designee, or a trusted school staff member. Staff members, upon receiving a complaint or witnessing bullying, are required to make a report to the Executive Director/designee. The submission of a Bullying Incident Form is required by the reporting party and will be made available from the Executive Director/designee. Oral reports shall also be considered official reports. Reports may be made anonymously, but formal disciplinary action may not be based solely on an anonymous report. Both oral and anonymous reports shall be documented and reported by the receiving administrator.

If a student or staff member feels that he/she is the target of cyberbullying, the student or staff member is encouraged to save and print any messages or other posts sent to them that they feel constitutes cyberbullying and to notify a teacher, Executive Director or other employee so that the matter may be investigated.

### **Investigation:**

Investigation: Upon receiving a report either directly from the target of bullying, a witness of bullying, or from a teacher or staff member, the Executive Director/designee must initiate the Investigation Procedures.

The investigation must be prompt, diligent and adhering to Pacific View Charter School's investigative procedures. All interviews of witnesses, the victim, and the accused shall be conducted separately. During an investigation, all individuals involved must, to the extent reasonably possible, maintain the confidentiality of the proceedings and the names of the complainant and students involved.

### **Victim's Rights:**

The victim of bullying has the right to immediate support, including physical and psychological support. During and after the investigation, a school counselor or other appropriate school personnel shall follow-up with the victim. Safety measures will be put in place in order to prevent further victimization.

An appeal process may be established for the complainant if he or she, should disagree with the resolution.

### **Intervention/Discipline:**

The Executive Director/designee shall decide the appropriate way to deal with bullying behavior if the investigation has proven that the student who engaged in the bullying behavior has violated this policy. Interventions and consequences must be age-appropriate and equal to the severity of the violation. Consequences and appropriate remedial actions for a student who commits an act of bullying may range from behavioral interventions and education up to and including suspension/expulsion, or referral to law enforcement.

### **False Reports and Statements:**

Intentionally false reports, use of the complaint process, or statement to defame a fellow student or staff member for any illegitimate reason, will result in disciplinary consequences.

### **Retaliation:**

Retaliation against a complainant or any individual involved in the investigation of a bullying situation, either by the student who has allegedly engaged in bullying behavior, the friends of the student who allegedly engaged in bullying behavior, or any other individual, is strictly prohibited or is grounds for discipline.
